

***Are you a parent of an 8-12 year old child with Autism Spectrum Disorder without an intellectual disability?***

***Does your child report experiencing problems with flexibility, planning, and/or organization?***

***If so, you may be eligible to participate in a research study to provide feedback on a software program for parents that provides advanced training on how to apply an evidence-based curriculum, Unstuck and On Target, at home.***

If eligible and chosen to participate in the study, all participants will be asked to complete the following research activities online. These activities are expected to take approximately 2 hours and you'll have 2 weeks to complete these activities. If participants complete the following research activities, they will receive a \$75 Amazon gift code for their participation.

1. Complete a survey of demographic information
2. Access and complete tasks on the software prototype
3. Review website examples of future software development
4. Complete a product evaluation to provide feedback on the prototype and website examples.

Following the completion of the online research activities, we will ask you to participate in a brief phone call about your experiences with the prototype lasting no longer than 45 minutes.

In order to learn more about the study or to determine if you are eligible to participate in this study, please visit this link: <http://unstuckontarget.com/study>
